PROJECTS

Link to Project: <https://github.com/Chidvilash21/My-resume.git>

Developed a Gaming Platform where it is used for playing some games by logging into it by confirming the saved user credentials, we've provided sign up option so new users can sign up through username and password so that the games page can be opened. we have used technologies like HTML, CSS, JavaScript, Node.js, and Database to store the user details. And we have done this project by the team

COURSES & CERTIFICATIONS
